Dandy Lift customized application

The versatile Dandy can be used for lifting, positioning, assembling, stacking, unstacking and transporting. Applications include factories, offices, stores, warehouses, repair shops, garages, nurseries, etc.

Choose from a variety of models:

- ✓ Low profile Dandy for use with skids, containers, or pallets.
- ✓ The Dandy Leveler raises and lowers automatically as loads change.
- ✓ The Dandy Tilter, for working with small parts in totes or junior containers.
- ✓ Powered Dandy Lift with push-button lifting and lowering.

Features include:

- ✓ Sure-grip cushioning and a series of gentle contours allows users to pick the most comfortable hand position.
- ✓ Open design, oversized lowering handle can be accessed from any position behind or beside the unit. Simply lift handle to lower loads.
- ✓ 180-degree access foot pedal can be pumped from the side or back of the unit.

Dandy Lifts & Levelers

Southworth Dandy Lift portable scissor lift carts are designed to make work easier and more efficient. These compact, mobile carts can be used for a variety of tasks, including lifting, positioning, assembling, stacking, unstacking, and transporting materials. They are also ideal for creating an adjustable-height work surface.

The Dandy Lift carts feature a user-friendly design with a mechanism that is activated by a manual foot pump, eliminating the need for power. The ergonomically shaped handles with comfort grip padding ensure comfortable and easy operation.
